

Daniel Izquierdo

Web Developer

Studying to become a web developer has allowed me for the first time to feel comfortable forming part of something. I have found people who share the same ambitions that I have. I'm looking forward to keep learning new skills from others, share what I know and develop myself as a professional.

WORK EXPERIENCE

Junior Web Developer General Assembly

08/2017 – 11/2017

London, United Kingdom

Achievements/Tasks

- Back-end developer
- Front-end developer
- APIs

Hospitality sector Multiple companies

09/2013 – 05/2015

United Kingdom & Spain

I have three years of experience in the hospitality sector. I started working there when I first moved to London. I started as a kitchen assistant and ended up being a chef. It was a pleasure working at this sector as I developed some really interesting skills and work ethics. It is still one of my passions although I decided to change paths in my career.

Achievements/Tasks

- Kitchen Assistant
- Commis-Chef
- Chef de Partie

EDUCATION

Associate's Degree in Web Development Ilerna FP Barcelona

09/2015 – 05/2017

Barcelona, Spain

Courses

- During this course I have learned the basics of coding in languages such as PHP, Java, JavaScript, HTML5, CSS3, jQuery, C# and EJS.

Web Development Immersive General Assembly

08/2017 – 11/2017

London, Greater London, United Kingdom

Courses

- The immersive programme teaches a range of popular programming languages and frameworks, as well as the soft skills needed to be a successful developer.
